Job Opportunity: Project Manager

Capstone Ridge Group is a Winnipeg-based management and information systems consulting firm with a primary focus on helping organizations improve performance by building their capacity to innovate and transform through the integration of people, process and technology. We have worked with clients in Manitoba and throughout North America in both the private and public sector to design and implement new business capabilities enabled by information technology. We have experienced practitioners with credentials in management consulting, project management, organizational change management, business process management, business analysis, systems analysis and quality assurance.

Capstone Ridge Group is looking for Senior Project Managers in Winnipeg with proven experience in executing Infrastructure, Business Transformation and Development projects.

Desired Skills and Experience:

- Minimum 5 yrs. experience leading transformational cross-functional IT projects
- Minimum 5 yrs. experience leading Agile projects (Scrum, Kanban, etc.)
- Well-versed with SDLC and methodologies like Agile (knowledge of Scrum framework), Waterfall, PMI-PMBOK, ITSM
- Bachelor's degree or higher
- North American work experience is preferred
- Certified Scrum Master and/or PMP certifications desirable
- North American work experience is preferred
- Certified Scrum Master and/or PMP certifications desirable
- Proven ability to build, manage and foster team-oriented environment
- Proven ability to work creatively and analytically in problem solving environment
- Excellent communication and inter-personal skills
- Excellent management and leadership skills
- Monitor project scope and scope changes, ensuring that anticipated business benefits are realized
- Ensure integration across related projects through collaboration with all stakeholders
- Adhere to all applicable policies within the organization including appropriate use of approved tools and methodologies
- Coordinate with the Change Management team to ensure optimal employee adoption
- Support communication efforts as needed to create and maintain awareness of the project benefits and status
- Provide timely updates regarding status of projects
- Willingness to travel for client consultations as and when needed

Why you should consider a career with Capstone Ridge Group

- Growing Winnipeg based entrepreneurial company with a respectful and supportive environment
- Building a vibrant team of mid to senior level consultants that work collaboratively in the best interests of all stakeholders
- Provides professional growth through varied and challenging opportunities and through career mentoring with funded professional development
- Provides on-going contact, support and mentoring to our resources throughout each engagement
- Offers several employment options including employee, contractor and hybrid models with incentive-based bonuses and optional benefits
